# Community Supported Death Care

*Death  
as part of  
Life*

## About Us

In the past, communities cared for their own at death, simply and naturally. Death was part of life, and death care was shared by friends and neighbours. We are your friends and neighbours, knowledgeable, compassionate, experienced, and willing to lend our helping hands. Since 2019 we have been educating, empowering, and helping to create alternative end-of-life choices in our community.

## What We Offer

Way To Go strives to  
integrate death as part of life by ...

- Empowering, guiding, and supporting the practice and process of caring for our own dead and dying, in community.
- Initiating conversations, educating, and assisting with end-of-life planning.
- Providing calm, steady guidance for those grappling with sudden, unexpected loss.
- Offering emotional support and advocacy from diagnosis to end-of-life.
- Navigating gaps between health care and death care in our remote location.
- Working to make home deaths more accessible for those who desire this.

## Death As Sacred

We view death as a sacred transition that brings profound change. We honour this journey by empowering individuals and their loved ones to explore options, participate actively, incorporate ritual and beauty wherever possible, and create space for grief and love to flow.
